

"Use Your Trusted Solution Partner Where Continents Meet"

Dear Industry Leaders and Business Partners,

As the leading ISO tank service provider in META Region with 20 years of excellence and trust, Alışan Den Hartogh (ADH), enhances your operations with high-standard solutions tailored for the chemical and food industries. With our strategic location and expert team, we provide secure storage, value-added services, and technical maintenance solutions to support your business.

Our Key Services at a Glance:

1. Buffer Stock Solutions as a Global and Regional Hub

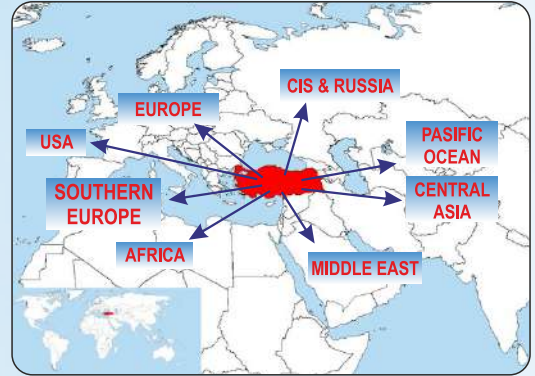

- Secure, efficient, and customized storage solutions to bring flexibility to your operations.
- Heating & cleaning services for ISO tank containers and reefers, ensuring compliance with the highest standards in the food and chemical industries.
- Fast and seamless transit trade operations to streamline your international logistics processes.

2. Value-Added Services Hub for Chemicals

- Filling and emptying of tank containers with maximum safety and precision.
- Repackaging and co-packaging services for all sizes, optimizing your supply chain.
- High-standard equipment for nitrogen blanketing and inert gas cleaning, ensuring operational excellence.

3. Maintenance, Repair (M&R), and Testing Center

- Professional maintenance and repair services by our experienced team.
- Fast and reliable repair solutions, ensuring your equipment is quickly back in operation.
- Spare part supply to keep your operations running smoothly.
- 2.5 and 5-year periodic testing in collaboration with BV, SGS, LLOYD (LR), and SEAMARINE, ensuring compliance and safety.
